

# #days-of-service

A Hack Club Initiative

Hey y'all! I'm Malycia (@FireBreather65). I'm a 17-year-old Hack Clubber from Washington State, and I'm currently working as a summer intern at Hack Club's Vermont HQ.

This is a 5-minute rundown of what some girls and non-binary Hack Clubbers have been up to this past month! You're receiving this newsletter because you're a girl or non-binary student in the Hack Club Slack.

## What is Hack Club?

By teenagers, for teenagers, Hack Club is a place where high school students of all experience levels come together to create cool things using code.

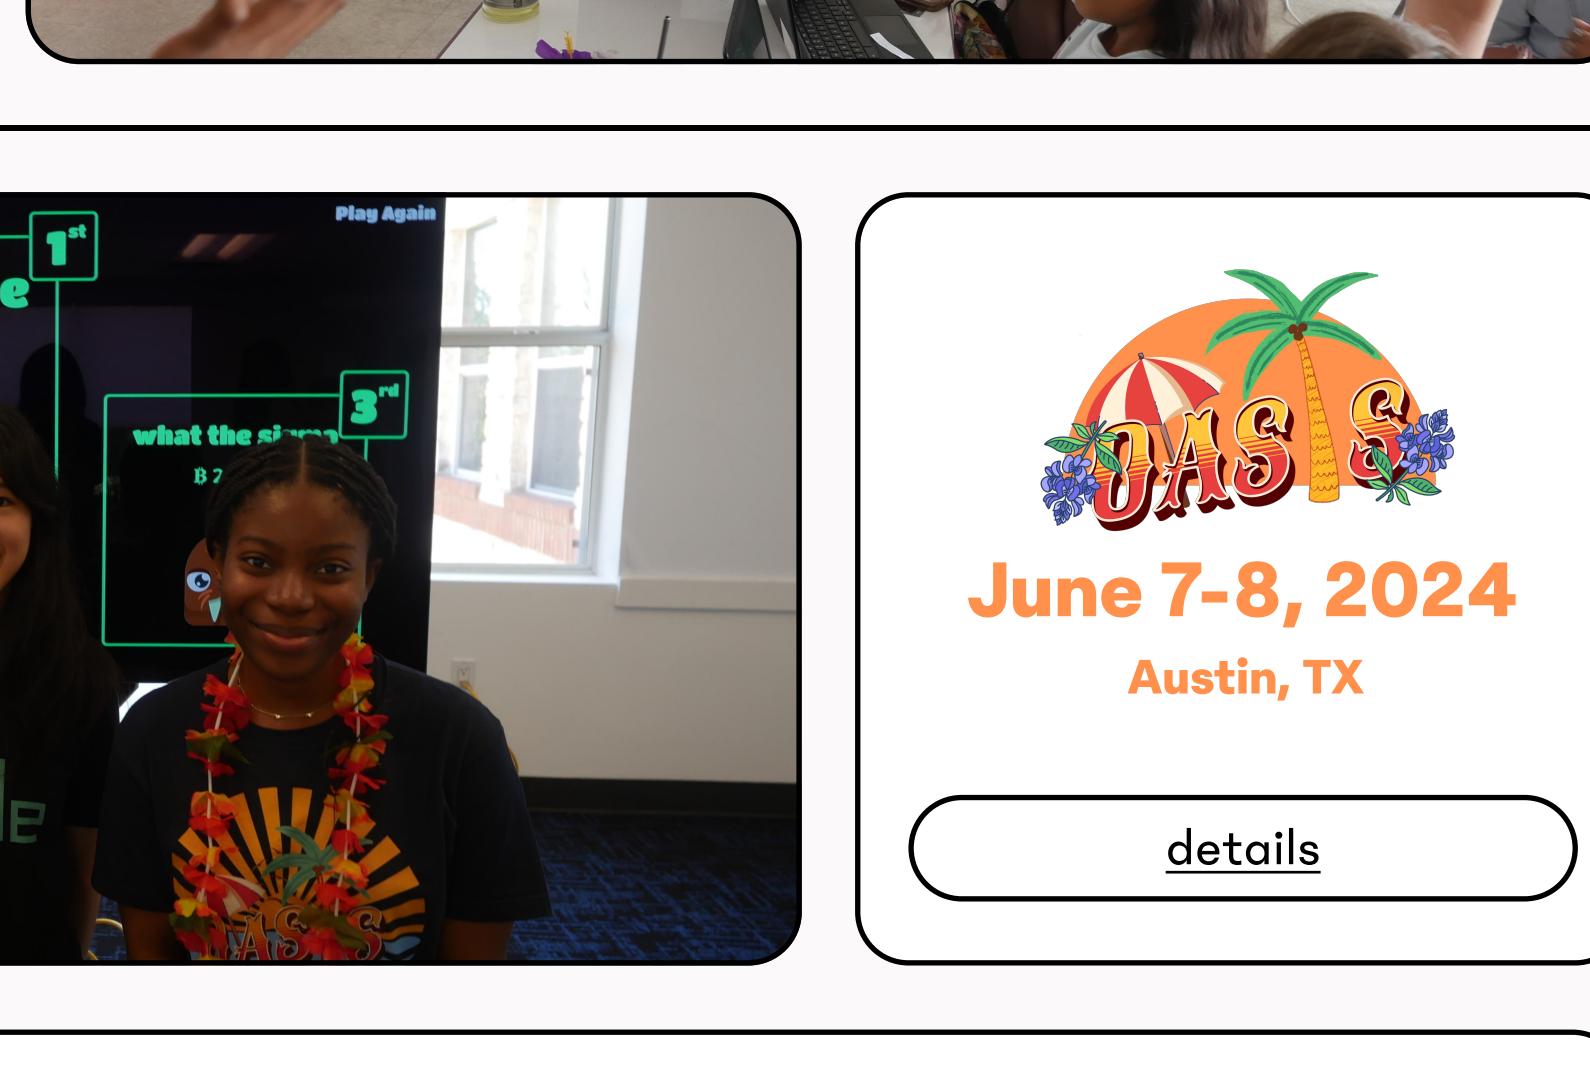

## #previous-events

Since March 2023, we've hosted 11 events across the country to help girls and gender-minorities write their first lines of code. These are our two most recent events, with more on the way!

**June 21st, 2024**  
Chicago, IL

[view all!](#)

## #future-events

### SF

August 31, 2024  
San Francisco, CA

### Luna

September 28th, 2024  
New York, NY

### Toronto

October 19th, 2024  
Toronto, ON

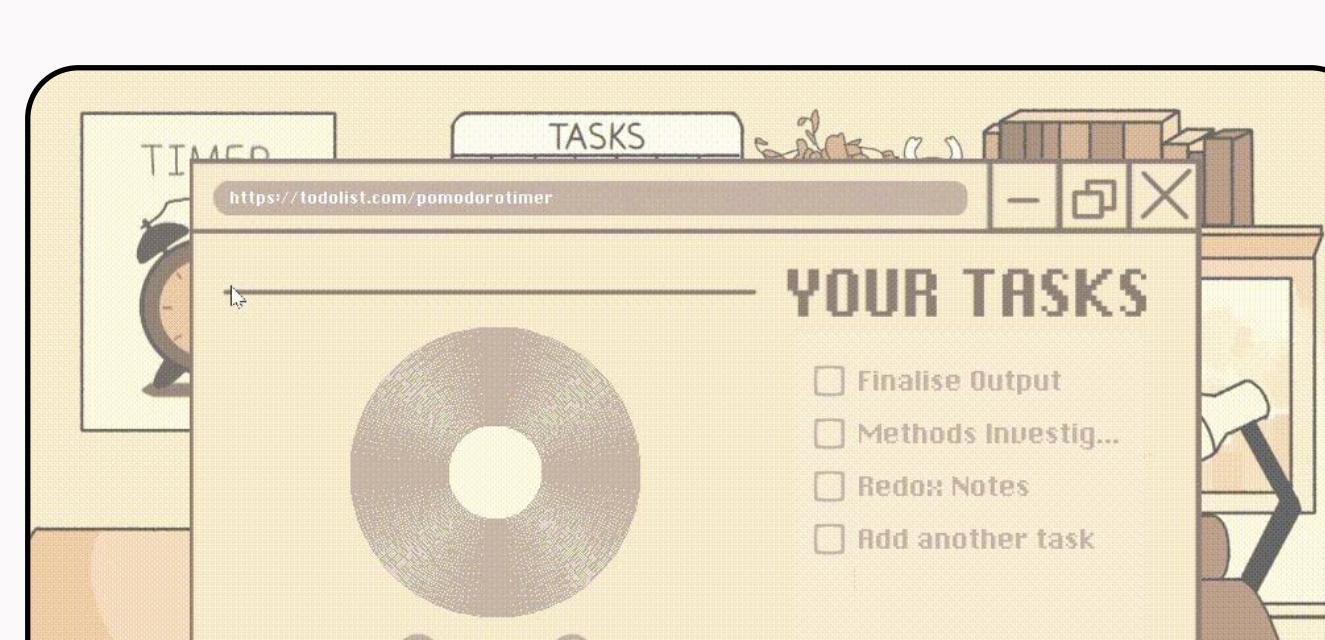

Want to help out with these cool events? Just send a message to Malycia (@FireBreather65) to get started! We're on the lookout for awesome people to help with things like talking to others, organizing events, spreading the word, and more. There's something fun for everyone!

**NOTE:** You don't have to live in the city to help out, try reaching out :)

## #magic-happening

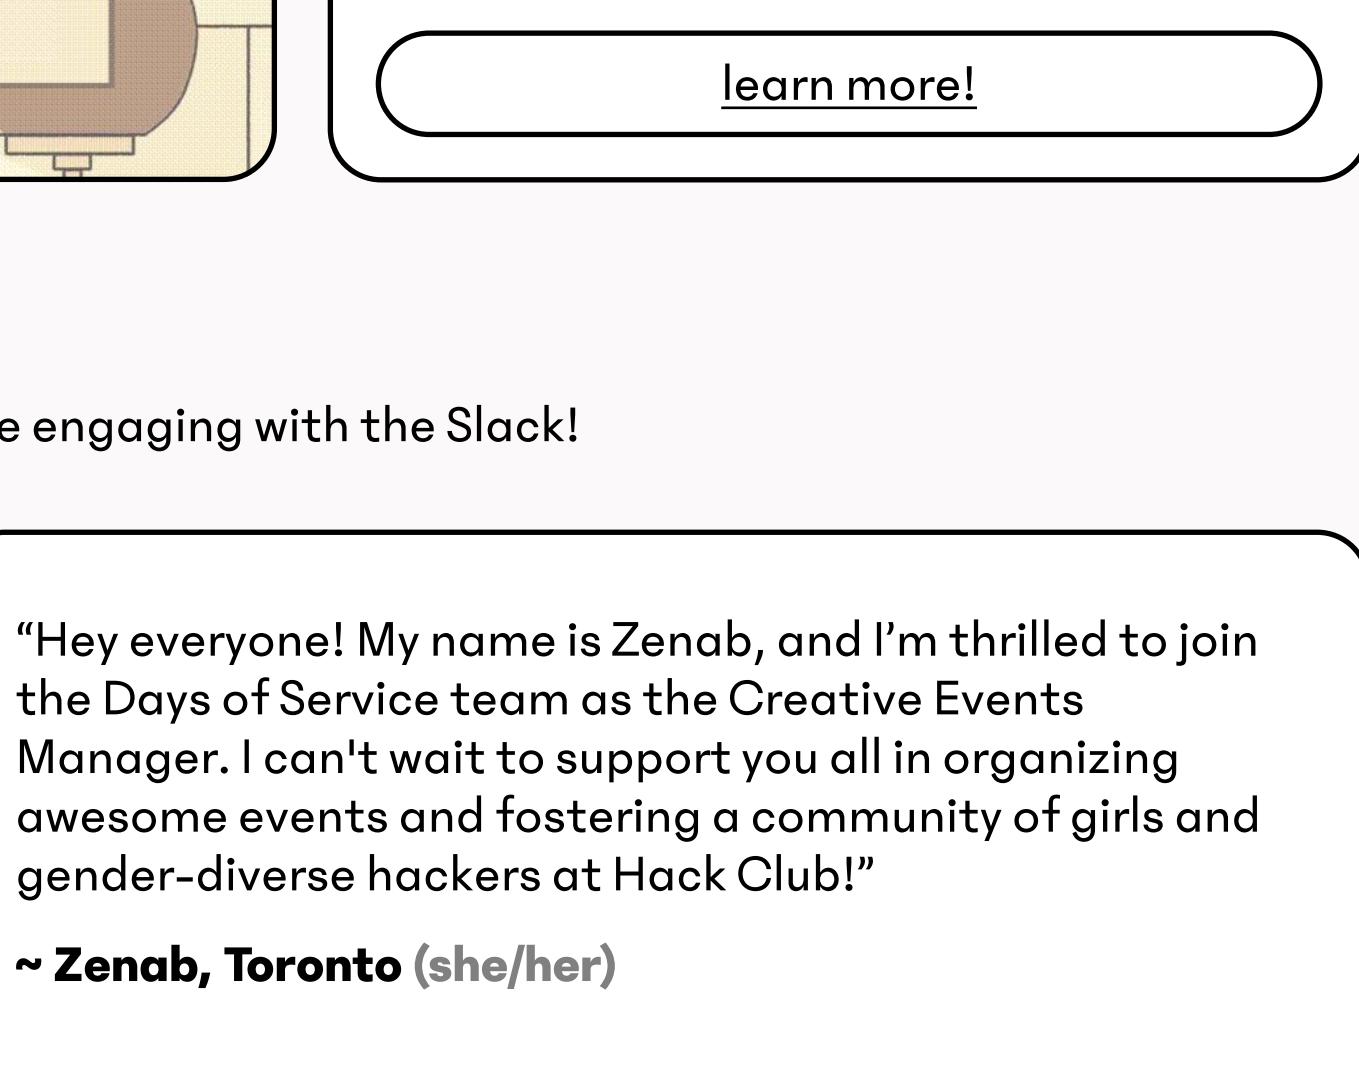

Check out cool projects by girls and non-binary Hack Clubbers like you!

"This project was created as part of a LangJam hosted by @JC. It ended up being a programming language, but instead of normal memory with variables and all, it was a tree-like structure of numbers. It was fun to make!"

~ Riley, 16, New Zealand (she/they)

[learn more!](#)

"I created a rocket simulation and learned C#: Throughout the process I learned how physics works in a simulation, how I can integrate the physics and math equations of how a rocket works."

~ Savina, 16, San Diego (she/her)

[learn more!](#)

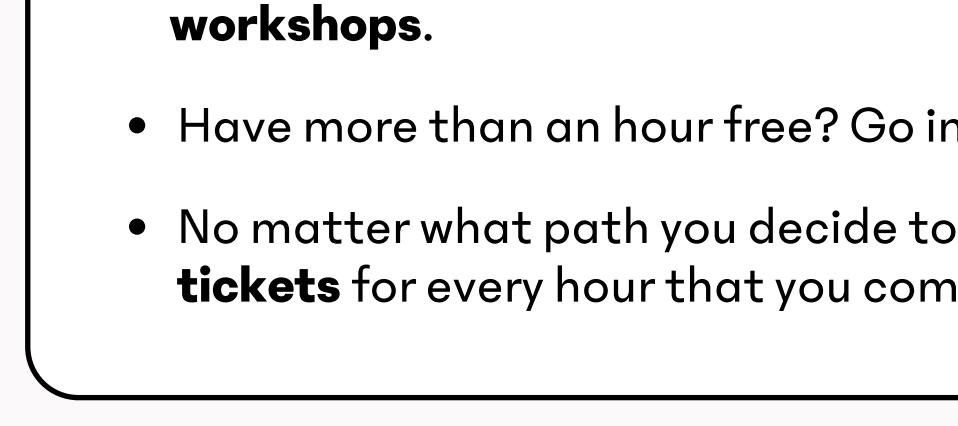

This is an aesthetic productivity app for students who struggle with time management and motivation, inspired by StudyTogether and Virtual Cottage.

~ Annabel, 16, Australia (they/them)

## #meet-the-community

Showcasing women, girls, and non-binary people engaging with the Slack!

"Hey everyone! My name is Zenab, and I'm thrilled to join the Days of Service team as the Creative Events Manager. I can't wait to support you all in organizing awesome events and fostering a community of girls and gender-diverse hackers at Hack Club!"

~ Zenab, Toronto (she/her)

## #other-cool-stuff

Find out what's going on around the Hack Club Slack that you can take part in!

- We host **weekly tech workshops** in the [#days-of-service](#) channel!

- Check out <https://hackathons.hackclub.com/> for **hackathons in your area!**

- Need a **project idea**? Check out [Jams](#) for some inspiration in the form of **short, insightful workshops**.

- Have more than an hour free? Go in-depth with a **You Ship, We Ship** like [Sprig](#) or [OnBoard!](#)

- No matter what path you decide to take, make sure to **log your hours** in [Arcade](#)! You will **earn tickets** for every hour that you complete, then you can **redeem them for prizes** :)

Happy coding everyone! We can't wait to see what you make ❤️

Fearlessly,  
**The Days of Service team**
